

How to add ISQ values manually in Osstell Connect

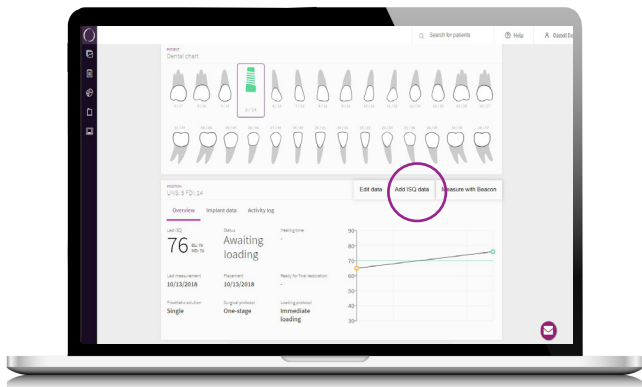

- 1** In OsstellConnect, you will see your ongoing implant treatments.
- Simply go to your patient records and choose the patient or create patient (check guide "How to create a patient").

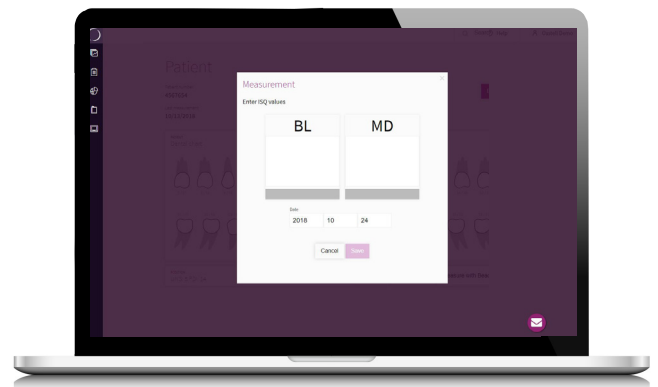

- 2** Click on the tooth.

- 3** Click "Add ISQ data".

- 4** Enter the ISQ values and date. Save.

- 5** Enter the info about the measurement. Save.
